

In 2020, I cracked Amazon as an SDE

In 2022, I cracked Google as an SWE

In 2024, I cracked LinkedIn (Microsoft) as a Sr. SWE

In 2025, I am working as a Sr. Software Engineer at Meta.

If I had to restart doing Leetcode practice and build my basics from 0 in 2025, I won't solve the 3500+ problems available on Leetcode, but I would 100% solve these 90+ from my own notes.

➤ To strengthen my understanding of String & String Algorithms:

- Longest Palindromic Substring
- Integer to English Words
- Compare Version Numbers
- Longest Substring Without Repeating Characters
- Find the Closest Palindrome
- Longest Duplicate Substring
- String to Integer (atoi)
- Regular Expression Matching
- Largest Number
- Longest Valid Parentheses
- Interleaving String
- Decode Ways
- Reverse Words in a String
- Wildcard Matching
- Valid Parenthesis String
- Remove K Digits
- Palindrome Partitioning II
- Decode Ways II
- Repeated String Match
- Validate IP Address
- One Edit Distance
- Valid Number
- Substring with Concatenation of All Words
- Strong Password Checker
- Fraction to Recurring Decimal
- Text Justification
- Shortest Palindrome
- Making File Names Unique
- Decoded String at Index
- Regular Expression Matching
- Split Array With Same Average
- Count The Repetitions

➤ To strengthen my understanding of Array & Array Manipulation:

- Median of Two Sorted Arrays
- 3Sum
- Jump Game II
- Maximum Product Subarray
- Next Permutation
- 132 Pattern
- Maximum Number of Events That Can Be Attended
- Surrounded Regions
- Max Points on a Line
- Next Greater Element III
- Text Justification
- Shortest Unsorted Continuous Subarray
- Reverse Pairs
- Shortest Subarray with Sum at Least K
- Shortest Subarray to be Removed to Make Array Sorted
- Water and Jug Problem
- Making File Names Unique
- Self Crossing
- Non-decreasing Array
- Continuous Subarray Sum
- Dungeon Game
- Wiggle Sort II
- Ways to Split Array Into Three Subarrays
- Maximum Non Negative Product in a Matrix
- Frequency of the Most Frequent Element
- Maximum Number of Visible Points
- Closest Room
- Minimize the Difference Between Target and Chosen Elements

➤ To strengthen my understanding of Hash Table & Hashing:

- Word Ladder
- Word Ladder II
- Longest Substring Without Repeating Characters
- Fraction to Recurring Decimal
- Making File Names Unique
- Substring with Concatenation of All Words
- Max Points on a Line
- All O`one Data Structure
- Contains Duplicate III
- Invalid Transactions
- Count Good Meals
- Make Sum Divisible by P
- Line Reflection

➤ To strengthen my understanding of Dynamic Programming (DP):

- Longest Palindromic Substring
- Jump Game II
- Maximum Product Subarray
- Regular Expression Matching
- Best Time to Buy and Sell Stock IV
- Longest Valid Parentheses
- Interleaving String
- Decode Ways
- Wildcard Matching
- Valid Parenthesis String
- Dungeon Game
- Count The Repetitions
- Palindrome Partitioning II
- Decode Ways II
- Maximum Score from Performing Multiplication Operations
- Super Egg Drop
- Integer Replacement
- Split Array With Same Average
- Largest Multiple of Three
- Minimize the Difference Between Target and Chosen Elements
- Maximum Non Negative Product in a Matrix
- Number of Digit One

➤ To strengthen my understanding of Two Pointers Technique:

- Compare Version Numbers
- 3Sum
- Next Permutation
- Reverse Words in a String
- One Edit Distance
- Shortest Unsorted Continuous Subarray
- Ways to Split Array Into Three Subarrays
- Sum of Square Numbers

➤ To strengthen my understanding of Binary Search:

- Median of Two Sorted Arrays
- 132 Pattern
- Search in Rotated Sorted Array II
- Nth Digit
- Shortest Subarray with Sum at Least K

- Reverse Pairs
- Closest Room
- Nth Highest Salary
- Super Egg Drop
- Minimum Space Wasted From Packaging
- Frequency of the Most Frequent Element
- Longest Duplicate Substring
- Longest Common Subpath
- Pow(x, n)

➤ To strengthen my understanding of Sorting & Order:

- 3Sum
- Wiggle Sort II
- Maximum Number of Events That Can Be Attended
- Reverse Pairs
- Remove K Digits
- Invalid Transactions
- Frequency of the Most Frequent Element
- Closest Room

➤ To strengthen my understanding of Stack & Monotonic Stack:

- 132 Pattern
- Longest Valid Parentheses
- Valid Parenthesis String
- Remove K Digits
- Create Maximum Number
- Shortest Unsorted Continuous Subarray
- Decoded String at Index

➤ To strengthen my understanding of Sliding Window:

- Longest Substring Without Repeating Characters
- Substring with Concatenation of All Words
- Contains Duplicate III
- Longest Duplicate Substring
- Frequency of the Most Frequent Element
- Maximum Number of Visible Points

➤ To strengthen my understanding of Tree & Graph (including BFS/DFS/Topological Sort):

- Alien Dictionary
- Validate Binary Search Tree

- Redundant Connection II
- Kth Ancestor of a Tree Node
- Surrounded Regions
- Water and Jug Problem

➤ To strengthen my understanding of Greedy Algorithms:

- Maximum Product Subarray
- Largest Number
- Strong Password Checker
- Valid Parenthesis String
- Remove K Digits
- Maximum Number of Events That Can Be Attended
- Split Array With Same Average
- Create Maximum Number
- Frequency of the Most Frequent Element
- Sell Diminishing-Valued Colored Balls

➤ To strengthen my understanding of Math & Number Theory:

- Integer to English Words
- Find the Closest Palindrome
- Prime Palindrome
- Pow(x, n)
- Fraction to Recurring Decimal
- Next Greater Element III
- Sum of Square Numbers
- Nth Digit
- Self Crossing
- Maximum Number of Visible Points
- Make Sum Divisible by P
- Number of Digit One
- Sell Diminishing-Valued Colored Balls

➤ To strengthen my understanding of Heap / Priority Queue:

- Maximum Number of Events That Can Be Attended
- Sell Diminishing-Valued Colored Balls
- Design Twitter
- Strong Password Checker

➤ To strengthen my understanding of Linked List:

- Rotate List
- All O(1) Data Structure
- Insert into a Sorted Circular Linked List
- Design Linked List
- Design Twitter

➤ To strengthen my understanding of Bit Manipulation / Bitmask:

- Divide Two Integers
- Split Array With Same Average
- Integer Replacement

➤ To strengthen my understanding of Design / System Design:

- All O(1) Data Structure
- Design Twitter
- Design Linked List
- Kth Ancestor of a Tree Node

➤ To strengthen my understanding of Database / SQL:

- Nth Highest Salary
- Word Frequency

➤ To strengthen my understanding of Other Advanced Patterns:

↪ Rolling Hash / Suffix Array / Hash Function:

- Longest Duplicate Substring
- Shortest Palindrome
- Longest Common Subpath

↪ Divide and Conquer:

- Median of Two Sorted Arrays
- Reverse Pairs
- Wiggle Sort II

↪ Union Find:

- Surrounded Regions
- Redundant Connection II

↪ Geometry:

- ▶ Max Points on a Line
- ▶ Self Crossing
- ▶ Maximum Number of Visible Points
